Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-91, drawn to a method of interpreting metadata in a multimedia browsing system, classified in class 715, subclass 523.
 - II. Claims 92-95, 105-111, 115-117, drawn to a method of communicating metadata between users of a multimedia browsing service, classified in class 709, subclass 205.
 - III. Claims 96-104, 112-114, drawn to a method of communicating metadata between a user device and an external device using a logon to the multimedia browsing system, classified in class 709, subclass 229.
 - IV. Claims 118-132, drawn to a method of transferring a media session from a first device to a second device, classified in class 709, subclass 227.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I-IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as lacking a table-of-contents updater on the second device, associated metadata and the address information in a voucher, and a media session terminating means on the first

device. Invention II has separate utility such as lacking associated metadata and address information in a voucher, and a media session terminating means on the first device. Invention III has separate utility such as lacking a media session terminating means on the first device. Invention IV has separate utility such as lacking associated metadata and address information in a voucher and a table-of-contents updated on a second device. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II-IV, restriction for examination purposes as indicated is proper.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
